### Rhode Island Department of Elementary and Secondary Education Ken Wagner, Commissioner

The Rhode Island Department of Education must release an annual State, District and School report card as required by the Every Student Succeeds Act (ESSA). The Every Student Succeeds Act (ESSA) is the most recent version of the Elementary and Secondary Education Act (ESEA)—the nation's major federal law related to public education in grades pre-kindergarten through high school. Passed in December 2015, ESSA continues and greatly expands upon the previous requirement that both SEAs (states) and LEAs (local districts). State and local report cards include information about public schools related to a wide variety of student and school performance metrics, accountability, per-pupil expenditures, and educator qualifications, as well as any other information that the SEA or LEA deems relevant.

## Rhode Island proficiency long-term goals and interim progress

ESSA requires states to set targets for and report progress on long-term goals for proficiency in English language arts (ELA) and mathematics.

Rhode Island’s targets are such that every subgroup is expected to reduce the gap between their performance and 100% by 12.5% per year for ELA and 14% per year for mathematics. 12.5% and 14% are the amounts that Rhode Island will have to move each year in ELA and math, respectively to reach 75% proficiency by 2025.

This is Rhode Island’s first year using the RICAS, SAT, and DLM state assessments. Targets were re-set based on 2018 data, and will be re-visited once there are 3 years of data.

ELA proficiency targets by subgroup

Math proficiency targets by subgroup

Targets are based on the 2018 achievement data. Subgroups with fewer than 20 students are not reported. Students who were not enrolled from Oct. 1 through the end of the testing window and students who moved to the US in the past year are not included.

# Rhode Island progress towards English language proficiency long-term goals and interim progress

ESSA requires states to set and report progress on long-term goals for progress towards English language proficiency.

The ACCESS for ELLs 2.0 test was new as of 2016, so these are the first two years of growth to English language proficiency available. Given that Rhode Island does not yet have longitudinal data for student performance on ACCESS for ELLs 2.0, **Rhode Island will revisit these initial long-term goals when three years of data are available** to determine whether the goals are still ambitious and achievable based on ACCESS for ELLs 2.0.

# Rhode Island 4-year graduation rate long-term goals and interim progress

ESSA requires states to set and report progress on long-term goals for the adjusted cohort graduation rate.

The targets are such that every subgroup is expected the reduce the gap between their performance and 100% by 14.5% per year. 14.5% is the amount that Rhode Island will have to move each year to reach 95% by 2025.

Targets are based on the 2015-16 four-year graduation rate. Subgroups with fewer than 20 students are not reported.

2017-18 State Assessment Data

The state assessments include RICAS (grades 3-8), SAT (grade 11), and DLM Alternate Assessments (grades 3-8, 11).
